disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

Implantations of electronic tracking circuitry compel graduate engineering students to do the bidding of Iranian terrorists bent on a nuclear attack on Israel. Military aircraft and munitions are stolen and taken to Northwest Iran where the invasion will be launched. A brave female student working in the very company where the electronic circuitry is made asks for help from one of her professors which leads to a Senator, a Congressman, the FBI and the CIA involvement in stopping this coming attack. In the mix is a search for Noah's Ark which provides aerial photos of the Northwest Iran terrorist site. Experience the progression as the terrorists prepare for the attack on Israel while the world's clandestine forces plan how to stop them. Follow the student as she is kidnapped by one of the
