C.F. Keil was a scholar strongly committed to confessional theology. His dogmatic-confessional approach is particularly evident in his approach to the Pentateuch. He strongly supported Mosaic authorship of the Pentateuch and rejected attempts to explain extraordinary events in the history of Israel as anything but miraculous, divine intervention. Keil showed much interest in the historical development of divine revelation. Viewing the prophets as persons who were able to perceive future trajectories of God's saving acts, he presented history and revelation as interdependent rather than fundamentally

dissimilar. Prophetic predictions then find their fulfillment in the historical person of Christ. This introduction to the Old Testament reveals Keil's foundational presuppositions - presuppositions which shaped his contribution to the well-known and influential Keil-Delitzsch 'Biblical Commentary', which includes Keil's commentaries on all the books from Genesis to Esther, Jeremiah, Ezekiel, Daniel, and the Minor Prophets.

Is it possible to see across space and time? Even those who accept that humans can reach beyond the conventional five senses typically think of psychics as "special" or "gifted" with unusual abilities. But David Morehouse teaches otherwise—all human beings, including you, have the innate capacity for remote viewing. David Morehouse was trained by the U.S. government in remote viewing—an exact scientific protocol for tapping the human power to gather information across space and time. In this comprehensive manual, he has taken his military training as an "operational" remote viewer and turned it into a step-by-step training system—one that teaches any serious reader how to unlock their natural abilities and become more than the physical world allows. Remote Viewing includes more than just a method for gathering information. It is a transformational tool instilling within you the absolute and irrefutable evidence that you are more than human—that you are extraordinarily human. As you gain experience and confidence as a viewer, you will tap into the collective unconscious that connects you to everything and everyone in the universe. Through David Morehouse's training, you will learn to touch the infinite source of life and knowledge that spiritual masters throughout human history have sought. David Morehouse's superiors in the DIA/CIA called him "the most exceptional candidate ever to have grasped this difficult intelligence collection methodology." What sets him apart as a teacher is his unparalleled ability to present the complexities of remote viewing in an accessible, logical, and artful manner. As more than 23,000 students have already discovered, David Morehouse has set a new and brilliant standard for teaching the scientific protocol of remote viewing. "You have the ability to do this," Morehouse says. "Something extraordinary is absolutely possible in your life." Now for the first time, he brings you his method for taking your first step into your ultimate potential in a single volume: Remote Viewing: The Complete User's Manual for Coordinate Remote Viewing, which also include a cool-down audio track. David Morehouse has found that this psychoacoustic "pink noise" track is especially effective for helping us enter the brainwave state of relaxed awareness needed for remote viewing.

New Realities of the Twenty-first Century, Part 1 by Prophet Wildman The psychic/parapsychic experience in the supernatural is one that is not readily understood or accepted by the masses. After enjoying the gift of psychic future predictive awareness for more than fifty years, Prophet Wildman had a deep understanding of the psychic and parapsychic experience. However, it wasn't until 2008 when he began receiving Holy subject (Tribulation) awareness as a precognitive psychic medium that he really began to delve deeper into this relatively unknown subject and explore psychic and parapsychic experiences as they related to the supernatural and Christianity. Prophet Wildman wows his readers with first-hand experiences, both from the perspective of being Christian and of being a psychic medium, while also providing a comprehensive dissection and decoding of the Tribulation event as it relates to the prophecy. Wildman's deeply personal

Scholars have shown renewed interest in the Book of Tobit since fragments of the text were found at Qumran. However, the wisdom instructions of Tobit 4 have remained largely ignored. The present study provides an extensive treatment of this important section, reading Tobit's wisdom discourse as a vital component in the literary expression of the author and as a strong indication of the significant role of the sapiential tradition in the world of Diaspora living. In the context of Second Temple Judaism, Tobit's wisdom discourse is part of an essential avenue for shaping identity and creating a distinct ethos for those outside the land.
