Beyond Hearing Bosoms by Sarah Wendell- The Smart Bitches Guide to Romance Novels is a 2009 Touchstone publication. I don't know how I missed this book when it was first published, but I did. As I scrolled through all the books available, I noticed this one, and because I was already in a pretty defensive mood that day, I added it to my TBR pile.

BEYOND HEAVING BOSOMS offers a heavily satirical look at the books we all love to read best, pointing out the flaws, but tenderly; they manage to poke fun at romance novels while at the same time, making this humor a celebration of the wackiness of the books, as well as an appreciation of what they offer for women, be it escape or even empowerment.

Beyond Hearing Bosoms is a really fun book and the writers truly love their genre and are also quick to criticize its many flaws. If you've read ANY romance, you can quickly play along with their "Judge the Cover" game, or play with the mad lib included, or enjoy the choose-your-own-adventure style pieces in the back.
