In 2012, the American Board of Medical Specialties (ABMS) approved Interventional Radiology (IR) as its own specialty. Born out of the field of Diagnostic Radiology, IR requires a more clinical focus on initial consultation and post-procedural management, rather than its previous role of performing image-guided procedures. Interventional Radiology: Fundamentals of Clinical Practice is written with this new focus in mind to help readers incorporate their procedural knowledge into a holistic approach of patient management. Chapters explore topics across a broad spectrum of IR, with a focus on etiology and pathophysiology of disease, followed by discussions on intra-procedural and post-procedural management. Numerous tables and boxes, and over 420 total figures complement chapter content. This comprehensive text is a must-have text for IR residents and reference for all practicing interventional radiologists.

With a heartwarming story and tender illustrations, Jeanette Bradley's debut picture book Love, Mama is perfect for Valentine's Day, Mother's Day, and any day when a child needs a reminder of the strength of a mother's love. When Mama leaves her young penguin Kipling, he knows she'll return home soon,yet he still can't help but miss her. After all, Pillow Mama won't read, Picture Mama won't laugh, and Snow Mama is too cold to cuddle. But then Kipling receives a special delivery from Mama, including a note that reads: My love for you stretches across the wide ocean, through day and night, from earth to sky and back again. And Kipling knows that no matter where Mama is, he is loved. Soon, Mama comes home, and Kipling ends the day where he belongs:right in her arms.
