The bestselling book revealing why Americans are so fearful, and why we fear the wrong things--now updated for the age of Trump In the age of Trump, our society is defined by fear. Indeed, three out of four Americans say they feel more fearful today than they did only a couple decades ago. But are we living in exceptionally perilous times? In his bestselling book The Culture of Fear, sociologist Barry Glassner demonstrates that it is our perception of danger that has increased, not the actual level of risk. Glassner exposes the people and organizations that manipulate our perceptions and profit from our fears: politicians who win elections by heightening concerns about crime and drug use even as rates for both are declining; advocacy groups that raise money by exaggerating the prevalence of particular diseases; TV shows that create a new scare every week to garner ratings. Glassner spells out the prices we pay for social panics: the huge sums of money that go to waste on unnecessary programs and products as well as time and energy spent worrying about our fears. All the while, we are distracted from the true threats, from climate change to worsening inequality. In this updated edition of a modern classic, Glassner examines the current panics over vaccination and "political correctness" and reveals why Donald Trump's fearmongering is so dangerously effective.

One of our most visceral and important memoirs on race in America, this is the story of Nathan McCall, who began life as a smart kid in a close, protective family in a black working-class neighborhood. Yet by the age of fifteen, McCall was packing a gun and embarking on a criminal career that five years later would land him in prison for armed robbery. In these pages, McCall chronicles his passage from the street to the prison yard—and, later, to the newsrooms of The Washington Post and ultimately to the faculty of Emory University. His story is at once devastating and inspiring, at once an indictment and an elegy. Makes Me Wanna Holler became an instant classic when it was first published in 1994 and it continues to bear witness to the great troubles—and the great hopes—of our nation. With a new afterword by the author

Playing an endless make-believe game about pirates, mermaids and warriors under the rule of a formidable Great Queen china doll, best friends Zach, Poppy and Alice find their bond tested when Zach is compelled to give up their shared adventures and Poppy begins having dreams about the doll. By the co-author of the best-selling Spiderwick Chronicles.

Abbey's explorations include the familiar territory of the Rio Grande in Texas, Canyonlands National Park, and Lake Powell in Utah. He also takes readers to such varied places as Scotland, the interior of Australia, the Sierra Madre, and Isla de la Sombra in Mexico.
