Answers

sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and

as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

Dr. James David Barber's well-known, provocative examination of who has the potential to be voted into the highest office in the land - and why - is being reissued as the newest addition to the "Longman Classics in Political Science" series. Arguing that patterns in a person's character, world view, and style can allow us to anticipate their performance as president, *The Presidential Character* offers explanations and predictions of the performance of presidents and presidential candidates. Drawing on historical, biographical, and psychological research, Dr. Barber hoped to help voters make judicious choices in determining the country's highest leaders.

Online Library Chapter 13 The Presidency Answers

Revisiting this classic work in today's important presidential election season begs a reconsideration of Barber's probing and enduring query, "What should we look for in a president?"

How should we govern? and What should government do?
Professors Edwards, Wattenberg, and Lineberry evaluate how well the American system lives up to citizens' expectations of democratic government and discuss alternative views concerning the proper scope of American government. In doing so they help students answer the critical question, "What difference does politics make?"

How Trump has used the federal government to promote

Online Library Chapter 13 The Presidency

Answers

conservative policies The presidency of Donald Trump has been unique in many respects—most obviously his flamboyant personal style and disregard for conventional niceties and factual information. But one area hasn't received as much attention as it deserves: Trump's use of the "administrative presidency," including executive orders and regulatory changes, to reverse the policies of his predecessor and advance positions that lack widespread support in Congress. This book analyzes the dynamics and unique qualities of Trump's administrative presidency in the important policy areas of health care, education, and climate change. In each of these spheres, the arrival of the Trump administration represented a hostile takeover in which White House policy goals departed sharply from the more "liberal" ideologies and objectives of key agencies, which had been embraced by the Obama administration.

Online Library Chapter 13 The Presidency

Answers

Three expert authors show how Trump has continued, and even expanded, the rise of executive branch power since the Reagan years. The authors intertwine this focus with an in-depth examination of how the Trump administration's hostile takeover has drastically changed key federal policies—and reshaped who gets what from government—in the areas of health care, education, and climate change. Readers interested in the institutions of American democracy and the nation's progress (or lack thereof) in dealing with pressing policy problems will find deep insights in this book. Of particular interest is the book's examination of how the Trump administration's actions have long-term implications for American democracy.

assembled a cadre of top presidential scholars to offer a series of pro/con essays that will inspire spirited debate in *Debating the Presidency: Debating the Presidency: Conflicting Perspectives on the American Executive, Fourth Edition* offers a compelling yet concise view of contemporary topics relevant to the American executive. Each pair of debate-resolution style essays is written specifically for this volume, and offers a compelling yet concise view of a topic relevant to the American executive. Editors Richard Ellis and Michael Nelson offer brief chapter introductions that provide context. In this edition, several new arguments are presented on topics such as executive orders (Pro: Gene Healy, Con: Andrew Rudalevige); abolishment of the vice presidency (Pro: Douglas L. Kriner, Con: Joel K. Goldstein); and the effect of new media on the public's view of the presidency (Pro: Matthew R.

a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two

Online Library Chapter 13 The Presidency Answers

presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development.

Just in time for election season, Dan Gutman's hugely popular **THE KID WHO RAN FOR PRESIDENT** is back. Humor, adventure, and excitement will draw kids into the world of elections and politics. "Hi! My name is Judson Moon. I'm 12 years old and I'm running for

President of the YOU-nited States." So begins this fast-paced, funny, and surprising account of a boy's run for the Oval Office in the year 2000. Under the tutelage of Lane, his brainy friend and self-appointed campaign manager, the affable sixth-grader from Madison, Wisconsin, takes on the Democrats and Republicans as a Third Party candidate who can make waves. "Grown-ups have had the last one thousand years to mess up the world," Judd tells a reporter. "Now it's our turn."

Wegman combines in-depth historical analysis and insight into contemporary politics to present a cogent argument that the Electoral College violates America's core democratic principles and should be done away with..." Publishers Weekly The framers of the Constitution battled over it. Lawmakers have tried to amend

or abolish it more than 700 times. To this day, millions of voters, and even members of Congress, misunderstand how it works. It deepens our national divide and distorts the core democratic principles of political equality and majority rule. How can we tolerate the Electoral College when every vote does not count the same, and the candidate who gets the most votes can lose? Twice in the last five elections, the Electoral College has overridden the popular vote, calling the integrity of the entire system into question—and creating a false picture of a country divided into bright red and blue blocks when in fact we are purple from coast to coast. Even when the popular-vote winner becomes president, tens of millions of Americans—Republicans and Democrats alike—find that their votes didn't matter. And, with statewide winner-take-all rules, only a handful of battleground states ultimately decide who will

become president. Now, as political passions reach a boiling point at the dawn of the 2020 race, the message from the American people is clear: The way we vote for the only official whose job it is to represent all Americans is neither fair nor just. Major reform is needed—now. Isn't it time to let the people pick the president? In this thoroughly researched and engaging call to arms, Supreme Court journalist and New York Times editorial board member Jesse Wegman draws upon the history of the founding era, as well as information gleaned from campaign managers, field directors, and other officials from twenty-first-century Democratic and Republican presidential campaigns, to make a powerful case for abolishing the antiquated and antidemocratic Electoral College. In *Let the People Pick the President* he shows how we can at long last make every vote in the United States count—and restore belief in our
