Modern cars are more computerized than ever. Infotainment and navigation systems, Wi-Fi,

automatic software updates, and other innovations aim to make driving more convenient. But vehicle technologies haven't kept pace with today's more hostile security environment, leaving millions vulnerable to attack. The Car Hacker's Handbook will give you a deeper understanding of the computer systems and embedded software in modern vehicles. It begins by examining vulnerabilities and providing detailed explanations of communications over the CAN bus and between devices and systems. Then, once you have an understanding of a vehicle's communication network, you'll learn how to intercept data and perform specific hacks to track vehicles, unlock doors, glitch engines, flood communication, and more. With a focus on low-cost, open source hacking tools such as Metasploit, Wireshark, Kayak, can-utils, and ChipWhisperer, The Car Hacker's Handbook will show you how to: –Build an accurate threat model for your vehicle –Reverse engineer the CAN bus to fake engine signals –Exploit vulnerabilities in diagnostic and data-logging systems –Hack the ECU and other firmware and embedded systems –Feed exploits through infotainment and vehicle-to-vehicle communication systems –Override factory settings with performance-tuning techniques –Build physical and virtual test benches to try out exploits safely If you're curious about automotive security and have the urge to hack a two-ton computer, make The Car Hacker's Handbook your first stop.

The Untouchable Tree is about our connection to the magnificence, the transcendence, and the essential nature of trees. Throughout human history, they have served as shelter and as symbol. And today, more than ever, our destiny is tied to theirs. The book weaves together prose, poetry, and art in a unique exploration of our relationship with these plants, from the billowy yet delicate black cherry to the majestic white oak. Each painting subtly points to a range of historical mythological symbols, reminding us of the "untouchable," the sacred, within each of us.
