This e-book also contains the practice questions for the SSC CGL Tier-2 & IBPS RRB Mains 2019 Exam. Apart from this, the book also has extensive coverage of important events throughout the month.

Oswaal Books latest offering One for All is going to break down the actual studying strategies for success and empower the students with the 5 E's of Learning-
• Engage- Introduce interesting content enabling better assimilation of concepts
• Explore- Provide meaningful insights into various typologies and methodologies for effective exam preparation
• Explain- Give better clarification for concepts and theories
• Elaborate- Complement studying with ample examples and Oswaal exam tools
• Evaluate- Conclude with Effective self-assessment tools
Latest & Reduced CBSE Curriculum Strictly based on the latest & Reduced CBSE curriculum issued for Academic Year 2020-2021, following the latest NCERT Textbook & NCERT Exemplar in case of Maths & Science subjects. Follows the Latest NEP 2020 Guidelines One for All has moved away from solely rote learning of facts towards more imaginative and flexible learning structures
Latest Typologies of Questions as per CBSE Latest Typologies like; MCQs, Tubulars', Passages, Picture based questions, Fill in the blanks, Match the following, etc. have been included in each chapter

"Exam targeted, 5 Solved & 5 Self-Assessment papers with Hints Exam success with all CISCE-specified typologies of questions Perfect answers with Board Marking Scheme and specified word limit Avoid mistakes with Commonly made errors Polish concepts with 'Answering Tips' Learn more with 'Mind Maps' Quick Revision with QR Codes on mobiles/tablets"

Competition Science Vision (monthly magazine) is published by Pratiyogita Darpan Group in India and is one of the best Science monthly magazines available for medical entrance examination students in India. Well-qualified professionals of Physics, Chemistry, Zoology and Botany make contributions to this magazine and craft it with focus on providing complete and to-the-point study material for aspiring candidates. The magazine covers General Knowledge, Science and Technology news, Interviews of toppers of examinations, study material of Physics, Chemistry, Zoology and Botany with model papers, reasoning test questions, facts, quiz contest, general awareness and mental ability test in every monthly issue.

Understanding the properties of magnetic materials underlies many of today's technological advances. The range of applications in which they are centrally involved includes audio, video and computer technology, telecommunications, automotive sensors, electric motors, medical imaging, energy supply and transportation. This two-volume work deals with the basic phenomena that govern the magnetic properties of matter, with magnetic materials and with the applications in science, technology and medicine. A phenomenological description of the mechanisms involved has been deliberately chosen in most chapters in order for the book to be useful to a wide readership. The emphasis is explaining, rather than attempting to calculate, the mechanisms underlying the exchange interaction and magnetocrystalline anisotropy, which lead to magnetic order, hence to useful materials. Volume II introduces magnetic effects at the atomic, mesoscopic and macroscopic levels, and a presentation of magneto-caloric, magneto-elastic, magneto-optical and magneto-transport coupling effects.
