Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Nearly everything we treasure in the world's most beautiful cities was built over a century ago. Yet the ideas and practices underlying these achievements have been abandoned. Nir Buras documents the humane design methods that held sway before the reign of Modernism and encourages us to relearn the time-tested principles of classic urban planning.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.
