Only one person has ever sailed vertically around the world - Adrian Flanagan. Sailing horizontally is difficult enough, crossing thousands of miles of ocean only to get near land at the Capes and battle treacherous currents. However, hundreds of sailors have still managed it. Adrian became obsessed with the idea of sailing vertically around the world as a boy, before he even knew whether it was possible. Thirty years later he managed it. This is his own account of his remarkable adventure. It was an epic challenge, sailing through the perilous waters around Cape Horn and across the remote, hostile stretch of the Russian Arctic. He survived being washed overboard, capsizing, a close encounter with pirates, and also managed to treat not one but two dislocated wrists - all of this alone, a thousand miles or more from anyone who could help him complete his quest. It wasn't all high drama, however. Adrian experienced moments of awe-inspiring beauty - being accompanied by a pod of whales, and swimming with dolphins. This is a timeless and unique story, pacily written with a sense of humour, but which captures the zeal and determination required to accomplish something nobody else has ever done before.

As players of Monster Hunter and Dungeons & Dragons know, the slime is not exactly the king of the fantasy monsters. So when a 37-year-old Tokyo salaryman dies and wakes up in a world of elves and magic, he's a little disappointed to find he's become a blind, boneless slime monster. Mikami's middle age hasn't gone as he planned: He never found a girlfriend, he got stuck in a dead-end job, and he was abruptly stabbed to death in the street at 37. So when he wakes up in a new world straight out of a fantasy RPG, he's disappointed but not exactly surprised to find that he's facing down a dragon, not as a knight or a wizard but as a blind slime demon. But there are chances for even a slime to become a hero...
