Mazda Trucks 1994-98 Wiring Diagrams Repair Guide - AutoZone

Oil leaks in the 1998 Accords with the 3.0 liter engine are often due to a bad seal in the drain plug - the metal washer in your drain plug can only be tightened a few times before it loses its ability to seal and should be replaced periodically to prevent leaking. Replacing the metal washer should only be done when you change the oil in your Accord, fortunately the video above shows how to fix the minor leak in the interim.
