Managing a major remodel of your home involves learning various aspects of a construction project: permitting; hiring contractors; clarifying what you really mean and want; managing a budget; overseeing quality, avoiding regrets; doing

Online Library Kenmore

what's right for yourself and standing up for yourself. It's a big job. The learning curve is high and often we homeowners don't get to apply the skills we learned again. In this book, the stories of a couple going through this

Online Library Kenmore

learning curve is told through the lens of a novice just like a conversation with a homeowner over a cup of tea. What they thought they wanted (a brand new house in modern minimalist style with solar panels and recycled materials)

Online Library Kenmore

is very different than what they ended up with (remodel of a 90-year-old house in the classic Arts and Crafts style to meet the stringent international building standard called Passive House). What caused this shift? How did they

Online Library Kenmore

Choose the contractor? How did they navigate out of overwhelm of green building choices? How did they manage the relationships? What would they do differently? Was it worth it? This book chronicles the journey by a couple from choosing the

Online Library Kenmore

location through
living in the house
after the
renovation
completion. It
wasn't all about
finding smart
people and
following expert
guidance. When
expert opinions
diverged and they
got stuck in
analysis paralysis

Online Library Kenmore

they had to trust their judgment and chose what they felt was right for them. After all, they'll be living in the house for years after the experts are gone. Reviews for MIDORI HAUS: "Chie Kawahara is a storyteller. Her book, Midori Haus, tells a compelling

"Midori Haus

serves as a journey

of adapting,

learning, greening,

nurturing, and

caring for an old

house by renewing

the house to

address current and future environmental challenges. The narrative is delightfully educational – the design process of achieving the passive house standard will be better understood through these stories and

Conversations.”

-Alison G. Kwok,
Ph.D., AIA, CPHC,
University of
Oregon "The
international
Passive House
standard has
gained a deserved
reputation as the

in the world.

Online Library Kenmore

Unsurprisingly,
publications about
it have mostly
been by and for
industry
professionals.
Midori Haus
represents an
alternative,
introducing readers
to Passive House
through the eyes of
a homeowner
undertaking a

remodeling project.
Chie Kawahara
takes readers
along on her
journey of
discovery and
remodeling
triumph. She
makes the process
understandable
and accessible and
readers are given
practical tools they
can use on their

own Passive House projects. There's nothing like a good case study told by the people involved to bring abstract concepts to life. Midori Haus doesn't disappoint." -Elrond Burrell, Architect, CPHD, blogger "In this delightful book, Chie Kawahara

Online Library Kenmore

describes the process she and her husband went through to purchase a 1920s bungalow and turn it into a state-of-the-art, healthy, green, Passive House. This account of their experiences is highly instructional for anyone

Online Library Kenmore

Considering buying
and renovating a
house, and it's a
wonderful read!"
