A few days ago, the car wouldn't start, we put in a new fuse and the car started. While driving we noticed smoke coming out of the hood. We pulled over and sure enough it was the starter burning. We had to tow the car to our house. Most of the time if we put in a new fuse, it will turn on unless the engine is very hot, then it burns the fuse. We have had this issue for about two weeks now. One ...
