root of /apex for accessing Oracle Application Express, rename the ords.war file to apex.war before installing Oracle REST Data Services.

~~Creating a Workspace and Adding Oracle Application Express ...~~

Oracle Application Express (APEX) is the tool that we will use to allow you to build tables and retrieve information from an Oracle database. When retrieving information from a database, you will often have to find a subset of the data based on specific search criteria. Becoming familiar with SQL will help you more quickly find the information that you need. Oracle Application Express (APEX) accounts are supplied without tables or data.
