Prentice Hall Chemistry meets the needs of students with a range of abilities, diversities, and learning styles by providing real-world connections to chemical concepts and processes. The first nine chapters introduce students to the conceptual nature of chemistry before they encounter the more rigorous mathematical models and concepts in later chapters. The technology backbone of the program is ...

GradeSaver

Description Written by John Suchocki and Donna Gibson of Chabot College, the Laboratory Manual features 20 experiments tightly correlated to the chapter content, including a new lab on Charles' Law. Each lab consists of objectives, a list of materials needed, a discussion, the procedure, and report sheets.
