Smart Response Manual
The SMART Response interactive response system is an assessment tool that enhances learning. It facilitates summative and formative assessment by allowing you to pose a question before, during or after a lesson to find out whether students are on track. You can use the feedback to help shape the rest of your lesson.

The Intel RST software denotes Intel Smart Response Technology as accelerate. To enable the Intel RST: Run the Intel RST software through the All Programs menu or the task bar icon. Click Enable acceleration under either the Status or Accelerate menu.

Intel® Smart Response Technology User Guide
SMART recommends monitoring methods, equipment, personnel training, and command and control procedures that strike a balance between the operational demand for rapid response and the Unified Command's need for feedback from the field in order to make informed decisions. SMART is not limited to oil spills.

Special Monitoring of Applied Response Technologies (SMART)
The Smart Response is like a mini computer. It will sense the air temperature and the wall temperature as well as the time of the day to determine when to cut the air conditioning or heat on to the home. You set these parameters when installing the unit. However you can disable the Smart Response with a push of a single button.

How to Disable a Smart Response on a Honeywell ...
Intel® Smart Response Technology is a feature of Intel® Rapid Storage Technology (Intel® RST) that enables either a dual drive-lower-cost, small-capacity SSD used in conjunction with a low-cost, high-capacity hard disk drive (HDD)-or a solid state hybrid drive (SSHD) to provide a high-performance, cost-effective storage solution.

Intel® Smart Response Technology
The Smart Response Swing is an indoor infant swing for use from birth until baby can sit up unassisted. The swing operates in response to a sound sensor and plays music. The metal legs of the swing are either blue or beige, and the seat is either beige or white. The Fisher-Price logo appears on the seat's tray.

Fisher-Price® Smart Response Swing

Incident response processes often involve many different people, teams and technologies. With SmartResponse, LogRhythm tracks and logs all activity undertaken to contain and mitigate the compromise. This eliminates the burden to manually capture and consolidate incident response information, including approvals and notifications.
