Just a few years ago, Jason Bond was a struggling New York schoolteacher saddled with \$250,000 worth of debt. Today he's a millionaire,

working as a stock market swing trader and trading mentor. Jason escaped the middle-class rut by taking seven steps to achieve financial freedom, and now you too can break free by following his winning formula. It took more than careful study, sharp instincts, and decisive actions for Jason to master the Wall Street game. In *Swing for the Fences*, he provides the tools and inspiration that will enable you to triumph in any big-risk-big-returns endeavor. Jason's proven techniques will help you change your mindset, multiply your wins, and position yourself for success. If you refuse to accept the status quo but instead go all in, the good life you've always dreamed about can be yours. It won't be easy, but the rewards will be tremendous.

How do you measure success? Baseball players, for instance, can fail seven out of ten times at the plate and go to the Baseball Hall of Fame. So why do you think need to bat 1.000? "*Swing for the Fences*" draws on lessons from America's greatest pastime to create a manual of practical tools for winning at the game of life. Navigating life's challenges is never easy, but Greg Bancroft's thoughtful and humorous writing will teach you how to give yourself a break and "suck less." In a clear, engaging style, "*Swing for the Fences*" guides you through being successful at home, at work, and in relationships. In the end, it's not just about the home runs; it's about how you approach stepping up to the plate. Greg Bancroft's love for baseball was forged during summertime pickup games in his youth. Now, he shares his passion for the mythology, spirituality, and emotional journeys of our national pastime with family and friends across the country. "*Swing for the Fences*" is Greg's second book.

This first book in a series about fictional encounters between children and their sports heroes features home-run legend Hank Aaron. In this gorgeously illustrated picture book, Mark, a young boy who idolizes Aaron, meets his hero and learns that there's more to being a great baseball player than hitting the ball out of the park.

What is the value of one idea? One simple idea that impacts the way you think could be worth hundreds of thousands or even millions of dollars over time. For me, it was one idea that allowed me to finally go all-in and pursue my passion. One idea gave me the courage to take the leap of faith and to know that success is right around the corner, all I have to do is keep going. In *Don't Swing for the Fences* I share the first big idea that helped me to understand what it takes to really succeed and achieve all of your goals. The world today would have us believe and expect that we need make it BIG in our first attempt at making big changes in our lives. Anything short of becoming a millionaire in a matter of months would be failing. It's all or nothing out there. You're either in or you're out. A winner or a loser. You should be swinging for the fences. Anything short of a home run must be a complete failure. Is that the way it should feel? We are constantly bombarded with stories about the latest multi-million dollar cell phone app being created and sold by a sixteen year old. Or the college dropout entrepreneur who built a billion dollar business in a year. But we are not reminded about the thousands of businesses and individuals who fail on a daily basis to achieve their big goals. When they fail they become discouraged and often times quit. The fact of the matter is that the mega success stories are FEW AND FAR BETWEEN. They are not nearly the norm, yet they are constantly the stories that gather the most attention today. They are the ones at the forefront of our mind causing us to think in unrealistic terms whenever we dare to take a step in a new direction in order to make proactive changes in our own lives. I believe that this is a very unhealthy view of the world. It is a recipe for continuous failure and unhappiness. I know because I have lived it. This book is a solution to the instant-gratification expectations of society. You will learn about a simple mind-set for success that you can begin practicing today. The ideas are practical, can be applied to any goal or business model, and they are easily incorporated into your current daily routine. You can begin making progress toward your dreams taking little or no risk. And the best part is, you will feel great about your progress on a daily basis! Will you CHOOSE to make a habit of progress toward your dreams and feel great about it? The choice is yours.

From being \$250,000 in the red to a portfolio north of seven million dollars, Jason Bond built a successful career as a swing trading mentor and trader by realizing two things: He was not satisfied with his previous financial situation as a teacher, and he knew he had to go all in to leave the status quo behind. His steps to financial freedom will teach you how to develop a "winners mindset" and gives readers the necessary tools to become successful stock market swing traders. His advice is authentic, actionable, and is not sugar-coated. The possible upside of swing trading is explained, along with the pitfalls to avoid--the kind that can blow up an investor's trading account. From managing the effects of emotion and greed to learning how to position yourself to begin swing trading, Jason outlines the entire process, using his skills as a professional educator to start you on a path to the kind of wealth you envision.

From the early formation of barnstorming teams that toured the state to the moment Dave Winfield hit number three thousand, Minnesota's African American ball players have made the state a land of baseball. However, the stories of many black players parallel the larger struggle for civil rights. Those tales, collected here for the first time, show how teamwork on and off the field led first to acceptance, then to admiration and triumph. *Swinging for the Fences* is the first collection to highlight the thrilling and controversial landmarks in the history of black baseball in the North Star State. Award-winning author Steven R. Hoffbeck assembled a stellar team of writers--and baseball fanatics--to tell the great stories of black baseball's past, from establishment of the color lines to dazzling hits by black heroes that led the Twins to victory over the Cardinals in '87. Each chapter focuses on one key player, and through these windows into their lives and livelihoods, their plays and passions, readers get an intimate look at the national pastime as it has evolved over the last century and more. Featured here are Hall of Famers like Willie Mays, Roy Campanella, and Kirby Puckett and great players like Walter Ball, John Wesley Donaldson, and Bud Fowler, who, because of their race, never made the stats books. These are stories of the bonds that formed between players, of legendary moments in baseball's past, and of real people whose love of the game kept them playing against tough odds.

Parks are great! Have your kids explore all the popular parks all over the USA with this *Swing for Fences* coloring book. This shall give them a good free tour of all the amazing nature reserves and get to meet the plants and animals residing in each of them. Get this cool activity book now!

From legendary playwright August Wilson comes the powerful, stunning dramatic bestseller that won him critical acclaim, including the Tony Award for Best Play and the Pulitzer Prize. *Troy Maxson* is a strong man, a hard man. He has had to be to survive. Troy Maxson has gone through life in an America where to be proud and black is to face pressures that could crush a man, body and soul. But the 1950s are yielding to the new spirit of liberation in the 1960s, a spirit that is changing the world Troy Maxson has learned to deal with the only way he can, a spirit that is making him a stranger, angry and afraid, in a world he never knew and to a wife and son he understands less and less. This is a modern classic, a book that deals with the impossibly difficult themes of race in America, set during the Civil Rights Movement of the 1950s and 60s. Now an Academy Award-winning film directed by and starring Denzel Washington, along with Academy Award and Golden Globe winner Viola Davis.
