The D4D, sorry, 1KD-FTV is not immune to seizing, even though it's 99 percent avoidable if you know where to look. The problem is caused by the oil pick-up in the sump becoming choked up with carbon and debris, restricting the flow of oil, thus destroying any chance of the motor getting the vital lubrication it so rightfully deserves.

Hey guys ive got an 06 petrol SR and my power windows have stopped working yesterday. Ive done a search but the problems other guys are having is when other acc arent working as well like stereo, lights etc. ive got everything working as normal but the windows. All doors dont work. Ive checked all fuses behind dash/glovebox and engine bay.

### ~~New Hilux.net - View topic - Power windows not working.~~

D4D rattle, premature Hilux injectors and pumps failing, stalling, rapid piston and cylinder deterioration have all been documented in every major common rail manufacturer, some with 50k or less on the odometer. As mentioned in an earlier post, almost every failure of Hilux injectors and pumps can be traced to fuel, either the quality or the pressure. The incredible pressure that common rail systems operate under causes tremendous heat, which can break down the diesel fuel in the system.
